Project Ibrahim Saber

USER STORIES

1. As a **user**, I want to have a **library card** so that I can **borrow books** from the **library**.
2. As a **librarian**, I want to **add** new **books** to the **library's** collection so that they can be available for borrowing.
3. As a **librarian**, I want to **remove** books from the **library's** collection so that we can keep the collection up-to-date.
4. As a **librarian**, I want to **display** a list of all the books in the **library's** collection so that users can easily find books they are interested in.
